

INSTALLATION GUIDE

Installation Tool Source

- Nomaco Insulation offers a wide range of flexible closed cell foam elastomeric and polyethylene insulation products available to the industry.
- Elastomeric tubular insulation is offered in slit, un-slit, and with a pre-applied adhesive seam seal.
- Polyethylene tubular insulation is offered with a seam seal and semi-slit.
- Elastomeric Sheet and roll products are available. Sheet and roll products are also available with pressure-sensitive adhesive backing.
- Sheet and rolls are also available in polyethylene based products.
- Accessories such as adhesives, UV protective coatings, and elastomeric foam tape are available.

Our insulation products are easy to apply with the use of simple tools that are readily available. Installation Guides are available upon request or from our website: www.nomacoinsulation.com. Listed below are tools required to properly install our insulation products.

Tools Required

Knife	Tape Measure	Templates	Punches
Scissors	Blackboard Chalk/Marker	Calipers	Brushes (short firm bristles)
Miter Box	Metal Straight Edge	Dividers	Tee Square
Whetstone/File	Clamps		

Most tools are available at your local hardware store, home center, or can be ordered through a supply house. Recommended knives and brushes are sold through distributors. The following distributors stock Hyde and Dexter products, and agreed to low minimums and discounts. They ship anywhere in the USA. Catalogs are available upon request.
