

RAW MATERIALS

NOMACO INSULATION products are safe and easy to use. No special handling or installation equipment is needed. Material Safety Data Sheets (MSDS) are available on all products upon request.

NOMACO INSULATION's elastomeric and polyolefin based products are non-fibrous, non-dusting, and require no special breathing apparatus to install. They are easy to handle. Fabrication is easy because these products are easy to cut and are non-abrasive.

Neither product contains any latex or formaldehyde based raw materials. Problems associated with allergic reactions and skin sensitivity associated with latex-based materials is not an issue.

NOMACO INSULATION products are friendly to the environment. Ozone-depleting materials like CFCs are not used in the production of **NOMACO INSULATION** products. The use of CFCs is regulated by the government and is not allowed.

NOMACO INSULATION products are designed with the user in mind. Manufacturing safe and easy to use products with the highest performance is our goal.
